Glassdoor:

What is a Product Manager at Gozem?

The Product Manager role at Gozem is a unique opportunity to have a direct and significant impact at the earliest stages of a tech startup in West Africa. As a key member of the team, you will oversee and optimize Gozem's product to achieve rapid growth. This role calls for a rare combination of problem-solving skills, creative business thinking, and strong interpersonal ability/people skills.

You will work in collaboration with our product team located in Bein & Togo.

Your tasks:

define the full specifications of new product functions and engage with the engineering team to develop them

test functions to ensure they match specifications and UX expectations

build user flow charts, storyboards, wireframes, and related elements that play into the planning phase of an application.

Strong focus on usability and interactive design.

Research and analyze industry UX/UI trends and competitor sites and strategies.

Regular review of usage data to analyze user behavior, pain points and to inform design decisions.

handle expectations of Stakeholders and setting clear vision and get buy-in cross functional.

You are the right person for this job if you...
Have competences in all facets of the design process

Have an experience with visual design, user research and exceptionally talented and skilled in Interaction and Information Architecture Design,

Are able to connect the dots between business needs, innovation and good design

are a great communicator with extensive cross functional collaboration experience and able to balance user needs and business objectives

You have
Level of education: Master's degree (recommended but not required) in Computer Science,Electrical/ComputerEngineering,Operations Research or Mathematics/Statistics

5 years of relevant experience in related fields

Self-motivated, independent learner, and enjoy sharing knowledge with team members

Mandatory skills: Familiarity with database structuring needed, familiarity with API based product needed

Skills we are looking for in addition, Basic knowledge of any programming language

Tools to master: Asana, Trello, Jira G-Suite

Languages :

French

English

Location: on site or remote

What we like most: Self-motivated, independent learner, and enjoy sharing knowledge with team members, Detail-oriented and efficient time manager in a dynamic and fast-paced working environment

NB: Applicants in a time zone between GMT and GMT+3 are encouraged.

Working conditions & benefits

We offer our employees a fair, friendly and intercultural working environment, in which we strive to develop the talents of each individual. To achieve this, we offer:

Remote work if you are not based in a country where Gozem is established (Togo, Benin, Gabon, Cameroon)

Open-space offices and teleworking time possible (to be arranged with your manager)

A gross monthly remuneration defined according to our internal salary grid as well as the relevance of your past experiences for the position.

An option to buy shares in Gozem

An annual bonus allowing you to receive between 0 and months of additional salary the following year

Benefits on our Super App for your travel and deliveries

A health and IT insurance package

And above all, the opportunity to join a young, dynamic team that has a real social impact in French-speaking Africa!

Interview process

An initial introductory meeting with the recruitment manager (30 minutes)

A business case to be completed within 08 days

A presentation of your business case with the head of the Tech team and a time to discuss your professional experience

An interview of 45 minutes with our Head of product (future n+1) followed by a referral request (you give us 4 professional contacts to whom we send a questionnaire)

One final validation interview with one of our co-founders
